## Work-Based Research in the Early Years

In the early years sector of education, all practitioners are now expected to engage in work-based research, as a means of improving practice and demonstrating leadership. Using examples from recent practitioner projects, *Work-Based Research in the Early Years* focuses on the development of research in practice and how it can work in a variety of settings.

With the aim of clarifying themes and concepts for inexperienced researchers, the text explores principles underpinning research, supported by case studies, which will be of particular relevance to students undertaking their own small-scale investigations. Further reading on research methodology is also included.

Chapters are organized under three headings: planning for research, doing research, and learning from research.

Concentrating on action research, this book provides practitioners and undergraduates with a greater understanding of the position of the researcher, how to facilitate research and how to ensure it underpins raising achievement and change in the workplace. There is an emphasis on the impact of research on practice, illustrated through reflection.
