As a university student, I exactly feel bored to read. If their teacher requested them to go to the library in order to make a summary for some e-book, they are complained. Just little students that have reading as an internal or real hobby. They just do what the educator wants, like asked to the library. They go to at this time there but nothing reading very seriously. Any students feel that reading through is not important, boring as well as can't see colorful images on there. Yeah, it is being complicated. Books are very important for you. As we know that on this age, many ways to get whatever you want. Likewise, word says, ways to reach Chinese's country. So, this *The Earl & the Fairy, Vol. 2 (The Earl and The Fairy)* can make you really feel more interested to read.
