Chemistry

Steven S. Zumdahl, Susan A. Zumdahl

Chemistry Steven S. Zumdahl, Susan A. Zumdahl

Zumdahl's best-selling text owes its success to its conceptual approach to problem solving, the quality of its end-of-chapter problems, and student-friendly writing style. The integration of descriptive chemistry and chemical principles throughout makes the text both interesting and understandable. A robust technology package accompanies this the Sixth Edition and includes access to online tutoring and a dynamic online homework system. Highlights of the new sixth edition Include: - Revised organisation: Chapter 22 "Organic Chemistry" & Chapter 23 "Biochemistry" have been combined, Chapter 21 "The Nucleus: A Chemist's View" has moved forward, and the descriptive chapters have been slimmed down - New! Approximately one-quarter of the end-of-chapter problems are new providing fresh sources of problems for instructors - New! Chemical Impact boxes have been updated to highlight the most relevant and practical applications of chemistry to students' everyday lives - New! Media icons in the text link students to related content on the General Chemistry Student CD-ROM and the web site - New! Art programme has been extensively revised to include more molecular-level illustrations of core concepts that help students connect the macroscopic to the molecular level

From reader reviews:

David Musick:

Spent a free the perfect time to be fun activity to try and do! A lot of people spent their free time with their family, or all their friends. Usually they doing activity like watching television, likely to beach, or picnic from the park. They actually doing same every week. Do you feel it? Will you something different to fill your free time/ holiday? Could be reading a book might be option to fill your free of charge time/ holiday. The first thing you ask may be what kinds of e-book that you should read. If you want to consider look for book, may be the publication untitled Chemistry can be very good book to read. May be it could be best activity to you.

Scarlet Rome:

The book Chemistry has a lot info on it. So when you check out this book you can get a lot of profit. The book was authored by the very famous author. The author makes some research ahead of write this book. This book very easy to read you may get the point easily after scanning this book.

Mamie Crossett:

Is it you actually who having spare time after that spend it whole day by means of watching television programs or just lying on the bed? Do you need something new? This Chemistry can be the answer, oh how comes? A book you know. You are thus out of date, spending your free time by reading in this new era is common not a nerd activity. So what these publications have than the others?

James Valenzuela:

As a student exactly feel bored to reading. If their teacher expected them to go to the library as well as to make summary for some book, they are complained. Just minor students that has reading's spirit or real their pastime. They just do what the teacher want, like asked to go to the library. They go to there but nothing reading critically. Any students feel that examining is not important, boring along with can't see colorful pics on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this Chemistry can make you feel more interested to read.
