The Dancing Wu Li Masters: An Overview of the New Physics Gary Zukav

Gary Zukav has written the bible for those who are curious about the mind-expanding discoveries of advanced physics, but who have no scientific background.

Like the Wu Li masters who teach wonder for the failing petal before speaking of gravity, Zukav writes in beautiful, clear language -- with no mathematical equations -- opening our minds to the exciting new theories that are beginning to illuminate the ultimate nature of our universe...quantum mechanics, relativity and beyond.

"The most exciting intellectual adventure I've been on." (The New York Times)
