Vaccination & Homoeoprophylaxis?: A Review of Risks and Alternatives - 7th Edition

Dr Isaac Golden

Vaccination & Homoeoprophylaxis?: A Review of Risks and Alternatives - 7th Edition Dr Isaac Golden
Vaccination & Homoeoprophylaxis? is a book which gives parents a choice in the way in which they protect their children against potentially dangerous infectious diseases, i.e. a safe, comparably effective natural method of immunisation which can be used in place of vaccines. The new 7th ed. has been restructured, with extensive new reference material in all sections. A new Section on the use of HP in Cuba involving millions of people has been added, with never before released data. The book examines the risks and benefits of vaccination, with the most authoritative discussion of the homoeopathic alternative available. Includes details of Isaac's research over 25 years, including his Doctoral studies, and the history of the homoeopathic alternative. The outstanding reference book for both parents and practitioners researching this contentious topic. 160x225, 440 pages.
