All the Stars I Can See:Beginnings is the first book in the All the Stars That I Can See series.

The year is 2066 and a world that has been teetering on the edge of disaster for twenty years is all set to fall into cataclysm.

The Centre has been working tirelessly to stave off disaster and help the world recover all through this time, but even their resources cannot help now. As a final move they construct a giant interstellar ship in orbit around the moon so at least they can escape.

At the last minute they discover a plot by the government to hijack the ship and escape the disaster that they had caused.

The race is on to see who can escape.
