Chemistry: Principles and Reactions, Hybrid Edition (with OWLv2, 4 terms (24 months) Printed Access Card) William L. Masterton, Cecile N. Hurley

Master the fundamental topics of general chemistry and succeed in the course with this brief, student-friendly text. CHEMISTRY: PRINCIPLES AND REACTIONS, 8e, provides a clear, concise presentation based on the authors' extensive teaching experience, includes an increased variety and number of applications that highlight some of the most up-to-date uses of chemistry, as well as graded and concept-driven examples and examples that focus on molecular reasoning and understanding. The strong art program now includes "talking labels" that help you visualize chemical concepts, while integrated end-of-chapter questions and Key Concepts correlate to OWLv2, the #1 online homework and tutorial system for chemistry that has already helped hundreds of thousands of students earn a better grade.

From reader reviews:

Ernestine Miller:

The book untitled Chemistry: Principles and Reactions, Hybrid Edition (with OWLv2, 4 terms (24 months) Printed Access Card) contain a lot of information on the idea. The writer explains the girl idea with easy method. The language is very clear and understandable all the people, so do not necessarily worry, you can easy to read the idea. The book was published by famous author. The author will bring you in the new time of literary works. You can read this book because you can keep reading your smart phone, or program, so you can read the book in anywhere and anytime. If you want to buy the e-book, you can wide open their official web-site as well as order it. Have a nice learn.

Charles Thomas:

In this era globalization it is important to someone to obtain information. The information will make someone to understand the condition of the world. The condition of the world makes the information much easier to share. You can find a lot of personal references to get information example: internet, newspaper, book, and soon. You will see that now, a lot of publisher that will print many kinds of book. The book that recommended to your account is Chemistry: Principles and Reactions, Hybrid Edition (with OWLv2, 4 terms (24 months) Printed Access Card) this e-book consist a lot of the information in the condition of this world now. This specific book was represented how can the world has grown up. The language styles that writer use to explain it is easy to understand. The particular writer made some study when he makes this book. That is why this book ideal all of you.

Michael Burnette:

As a student exactly feel bored to reading. If their teacher asked them to go to the library in order to make summary for some publication, they are complained. Just little students that has reading's heart or real their hobby. They just do what the instructor want, like asked to go to the library. They go to there but nothing reading seriously. Any students feel that reading is not important, boring as well as can't see colorful pics on there. Yeah, it is to be complicated. Book is very important for you. As we know that on this period, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore , this Chemistry: Principles and Reactions, Hybrid Edition (with OWLv2, 4 terms (24 months) Printed Access Card) can make you experience more interested to read.

Lourdes Tyner:

Reading a publication make you to get more knowledge as a result. You can take knowledge and information from the book. Book is composed or printed or created from each source this filled update of news. In this modern era like at this point, many ways to get information are available for an individual. From media social including newspaper, magazines, science reserve, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to spread out your book? Or just

trying to find the Chemistry: Principles and Reactions, Hybrid Edition (with OWLv2, 4 terms (24 months) Printed Access Card) when you required it?
