One of the keys to acquiring a new language is to learn the patterns that make up the language. Simply learning phrases so you can speak "pidgin" Cherokee is not learning Cherokee. You need to learn the fundamentals of the language on how words are put together to be able to understand and communicate in the language. There are many degrees of meaning that different word parts provide and if you don't learn these shades of meaning up front and how they are expressed you will never progress beyond simple memorized phrases and never obtain satisfaction with the language. While each person's skill will differ, one should strive to gain enough understanding of the mechanics of language to be able to comprehend and communicate effectively. The goal of this material is to provide you a solid structural foundation on how Cherokee works. You will learn how words are put together in basic sentences and how to form new words for ideas not listed in the dictionary.
