*5 free Bonus works are included in this kindle Book!!

The Prince is a 16th-century political treatise by the Italian diplomat and political theorist Niccolò Machiavelli. From correspondence a version appears to have been distributed in 1513, using a Latin title, *De Principatibus* (About Principalities). However, the printed version was not published until 1532, five years after Machiavelli's death. This was done with the permission of the Medici pope Clement VII, but "long before then, in fact since the first appearance of the Prince in manuscript, controversy had swirled about his writings".

Although it was written as if it were a traditional work in the mirrors for princes style, it is generally agreed that it was especially innovative. This is only partly because it was written in the vernacular Italian rather than Latin, a practice which had become increasingly popular since the publication of Dante's *Divine Comedy* and other works of Renaissance literature.

The Prince is sometimes claimed to be one of the first works of modern philosophy, especially modern political philosophy, in which the effective truth is taken to be more important than any abstract ideal. It was also in direct conflict with the dominant Catholic and scholastic doctrines of the time concerning how to consider politics and ethics.

Although it is relatively short, the treatise is the most remembered of Machiavelli's works and the one most responsible for bringing the word "Machiavellian" into usage as a pejorative. It also helped make "Old Nick" an English term for the devil, and even contributed to the modern negative connotations of the words "politics" and "politician" in western countries. In terms of subject matter it overlaps with the much longer *Discourses on Livy*, which was written a few years later. In its use of near-contemporary Italians as examples of people who perpetrated criminal deeds for politics, another lesser-known work by Machiavelli which *The Prince* has been compared to is the *Life of Castruccio Castracani*.

The descriptions within *The Prince* have the general theme of accepting that the aims of princes—such as glory and survival—can justify the use of immoral means to achieve those ends:

He who neglects what is done for what ought to be done, sooner effects his ruin than his preservation.

*This Book includes 5 Bonus Books all in one. (With comfortable active table of contents)

*Free Works those are included:

- THE ART OF WAR by SUN TZU
- MEDITATIONS By Marcus Aurelius
- THE REPUBLIC By Plato
- THE AGE OF REASON - PART I and II By Thomas Paine
